

**PROJECT: Fish & Chip Restaurant, Doncaster**

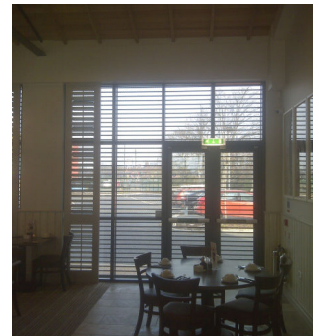

**PRODUCT: Electric Visionguard 76 Roller Shutters, 18No. 3000mm(W) x 4000mm(H)**

The old fire station opposite the Doncaster Racecourse was converted into a brand new Fish Restaurant.

A&C Maintenance Ltd was awarded the contract to supply & install 18No. of our Visionguard 76 Perforated security shutters to all ground floor windows.

Specification included operation by single phase, 240 volt tube motors, lockable key switches and powder coat finish to shutter curtain, side guides and coil casing.

One of the reasons behind A&C being awarded the contract was our flexibility to work closely with the contractor and fast track the project for the grand opening before the Christmas holidays.
