

PROJECT: Production Facility, Rotherham

PRODUCT: High Speed Fold Up Doors, 8No. 3500mm(W) x 5000mm(H)

A&C Maintenance Ltd was awarded the contract to replace the clients existing ageing & damaged high speed doors.

The contract involved dismantle & removal from site of the existing doors and supply & installation of 8No. 3500mm(W) x 5000mm(H) Instant Pass Fold Up Doors complete with automatic operation by induction loops to both sides of the opening and a number of vision panels to each curtain.

Our client wanted piece of mind when awarding the order. The project was managed by A&C Maintenance Ltd from start to finish. This included supply & installation of secondary steelwork and builders work. Including cutting and back filling of loop slots, removal of kerbs, concreting and provision of protection bollards.
