

**PROJECT:** Steel Stock Holders, Rotherham

**PRODUCT:** Electric Operated Insulated Shutters, 2No. 7100mm(W) x 5500mm(H)  
5No. Steel Hinged Doors, 1000mm(W) x 2100mm(H)

New extension to existing steel stock holders building. A&C Maintenance Ltd was awarded the contract for supply & installation of 2No. Large electrically operated insulated roller shutters and 5No. Steel hinged fire exit doors.

The shutters were manufactured with complete wind anchored guides, head & side seals and powered by direct drive motors with integral safety brakes.

The steel hinged doors were supplied with 2 point panic bolts, overhead door closers, external access devices and powder coat finished.
