

PROJECT: Miners Welfare Club, Rotherham

PRODUCT: Safeguard Series 1500 Steel Hinged Door Sets

The project brief was to replace all the existing Timber Doors with new Safeguard series 1500 steel door sets. Each door was bespoke manufactured to suit each existing opening.

EXISTING TIMBER DOORS

The project comprised of 4no Double Steel Doors and 2no Single Steel Doors. Various different types of Ironmongery. Including panic bars, mortice locks, pull handles, security drop bars and glazed transom panel.

NEW SERIES 1500 SAFEGUARD DOORS

Each door was supplied with a powder coat finish. Any gaps or unsightly brickwork was masked by pressed metal flashings and closures powder coated to match the doors.
