

PROJECT: Refurbishment Of Distribution Centre, Lancashire (Phase 3)

PRODUCTS: 3no: Electric Operated Sectional Overhead Doors
1no: Safeguard 76 Electric Operated Roller Shutter Door

The third phase of the project involved the supply and installation of 3no new electric operated sectional overhead doors 3500mm (W) x 4550mm (H). Complete with Merlin Grey Plastisol external finish and a row of 3no vision panels.

Secondary steel door support work was manufactured and installed by A&C to carry one of the sectional doors.

A safeguard 76 Electric operated roller shutter door 3800mm (W) x 5000mm (H) with wind anchored guide system was also installed in place of an existing worn and damaged shutter.
